

2005 Provincial Sponsors

Congratulations to  
Philip and Luanne Lynn

Beef & Cash Crop from  
Lucan, Ontario  
National Level Winners

CANADA'S  
OUTSTANDING YOUNG  
FARMERS 2005

Philip and Luanne and their children, Jordan (7) and Graeme (6) conduct business near Lucan. Philip and his father act as one in operating the family of 4 companies which includes the Lynn Cattle Company Inc, one of the largest beef feed lots in Ontario. The Lynn's have a 5000 head feed lot which finishes over 11000 head per year. Through careful planning and analysis, Philip has created solutions to ensure his success by designing a modern feedlot with unique features and a state-of-the-art handling system. Construction of the 2200' long X 200' wide facility took place in stages over 5 years and was completed in 2000. Control of feed costs is pivotal, therefore 2400 acres, are used to produce corn silage, grain corn, wheat straw and soybeans for the feed lot. Careful scrutiny of cost control led to the construction of high moisture grain elevators and an "on-farm" feed plant capable of processing 1200 mt of supplement. Maintaining a constant intake over the feeding period is considered a critical component to Philip's bunk management. Philip envisions opportunities and is currently predicting the future by inventing it. His plans to install a bio-gas plant will eliminate the spreading of manure and generate 5 mega watts of electricity for 9 hrs per day. By bestowing a sense of pride in their work, he encourages the caliber of staff that is key to taking a thought and making it a reality. Philip admits that "I'm rarely satisfied as to where I am" however, "We do what we do because we love it."
